### Actions

Area	Action Ref	Action	Owner	Due Date	Update
------	------------	--------	-------	----------	--------

### Decisions

Area	Decision Ref	Description
<b>SIT CIT Test Case Batch (Interval 1 &amp; 2)</b>	TMAG-DEC47	Approval of SIT CIT Test Case Batch (Interval 1 & 2).

### Key Discussion Items

Area	Discussion
<b>SIT CIT Test Case Batch (Interval 1 &amp; 2)</b>	<p>KD shared that the SIT Test team have secured closure of all queries raised against the Component Integration Testing (CIT) Interval 1 &amp; 2 Test Cases through necessary bilaterals and responses.</p> <p>Therefore, the Programme would like to request eTMAG approval of the Component Integration Testing (CIT) Interval 1 &amp; 2 Test Cases.</p> <p>The Chair asked if there were any questions on this.</p> <p>KR shared that the Avanade team were currently reviewing the updates and still needed to provide feedback. LC responded that this topic (Avanade DIP review) is outside the scope of interval 1 &amp; 2 and therefore would not be relevant to the approval of the test cases.</p> <p>LC noted that the Programme was having discussions with Avanade on these particular tests and challenges, however this was not the approval ask.</p>

	<p>JM asked if the test cases would be published for all Programme Participants, not just those in intervals 1 &amp; 2. KD agreed this would be the case.</p> <p>No further questions.</p> <p>The Chair asked if there were any objections to the approval of SIT CIT Test Case Batch (Interval 1 &amp;2). No objections. Approved (<b>DECISION TMAG-DEC47</b>).</p>
<b>Summary and next steps</b>	<p>The Chair thanked participants for making time to attend this Extraordinary TMAG meeting and went over the next steps. The extraordinary TMAG on 30 October 2023 was noted, due to its importance for the approval of M9.</p>

**Date of next TMAG: 23 October 2023**
