

DAG 12th January 2022

Key Decisions

DAG-DEC05: Security Design Working Group Terms of Reference - **Approved**

Key Actions

Draft Design Principles' – Ensure that:
a) they are presented at a higher level in themes and categorised;
b) a status for each principle is adopted, so it is clear whether the principle is a draft one or has been formally adopted and agreed;
c) separate out assumptions or requirements and
d) draft a governance approach for DAG approval and where they may be published.
Ensure that they are circulated ahead of the next DAG meeting

'Draft Design Principle' – PRI-20 – 'Retrospective Appointments' - Further discussion required for understanding and clarification of this principle.

JA to ensure session is held to discuss SEC-Mod-MP162 and RL's design principle and circulate the principle wording, the modification context and considerations/proposal on any further MHHS design requirements.
