- SFTP connections need to be set up to enable Delivered data to be accessed.
- Please ensure Public keys are created and sent back to data team
- Test SFTP connection prior to data sent date
- Data team will work with you to resolve SFTP issues.
- Short calls can be set to resolve connection issues
- Bilaterals will be held to review progress

Note: Real MPAN data only to be sent via SFTP no email.

Test Data and Messages you will receive

NOTE: CIT will evaluate the DIP interfaces, integration and routing. It won't evaluate the functional processing of the messages.

The scope of SIT Component Integration is:

1. For all Roles interfacing with the DIP:
 - I. **Verify the ability to download the Industry Standing Data** for each Participant within MHHS Architecture.
 - II. **Verify the ability to send/receive IF/PUB** for each individual Participant within MHHS Architecture.
2. For the DIP:
 - i. **Verify DIP routing**
