## 3. Document Instructions

The Qualification Assessment Document (QAD) is the mechanism through which all Programme Participants will provide the evidence required by Code Bodies for MHHS Qualification. Code Bodies expect Programme Participants to complete the QAD at an organisation level, covering all Market Roles they intend to operate within the new MHHS arrangements.

For further details on the Qualification process please refer to the [Qualification Approach and Plan \(QA&P\)](#) which sets out the purpose of MHHS Qualification during the MHHS Programme and the high-level plan and requirements for Programme Participants to undertake in relation to the Balancing and Settlement Code (BSC) and Retail Energy Code (REC).

To support the efficient review of evidence and to avoid unnecessary delay between the completion of Qualification Testing (QT) / MHHS Programme Systems Integration Testing (SIT) and MHHS Qualification being approved, evidence should be provided via an Initial QAD Submission and a Final QAD Submission. Where test evidence has been uploaded into Microsoft Azure DevOps (ADO), this should be referenced within the QAD, rather than uploading evidence in multiple places.

A Programme Participant must provide the following in its **Initial QAD Submission**:

- Confirmation of Pre-Integration Testing (PIT) completion (test completion report including defects that cannot be resolved through PIT with supporting work-off plans and agreement with Code Bodies where elements of PIT have been deferred for later completion), which is outlined in section 4.2.2,
- Confirmation that it has service designs/Local Work Instructions (LWIs) covering each relevant process, which is outlined in section 4.2.3,
- Details of operational controls e.g. exception management etc, which is outlined in section 4.3.1, and
- Other organisation specific information requested in the Initial QAD Submission (not reliant on testing).

Code Bodies will then review this information and work with the Programme Participant to clarify and assure that the information provided meets Code Body requirements for MHHS Qualification.

Once the Programme Participant has completed QT/SIT, it must provide its **Final QAD Submission** covering the following:

- Confirmation of QT/SIT completion (test completion report including defects that cannot be resolved through SIT/QT with supporting work-off plans that have been agreed by Code Bodies), which is outlined in section 4.2.4.
- Confirmation that it has completed DIP User requirements e.g. information security responses reviewed and agreed by DIP Manager and any contractual agreements, required between the Programme Participant and the DIP Manager to become a DIP User, have been signed (this includes DIP Connection Providers operating on a Programme Participant's behalf), which is outlined in section 4.5.

All sections must be completed during the initial submission of the QAD, and verified for the final submission of the QAD, unless stated.

The relevant MHHS requirements are provided for reference only, and Participants are not expected to delineate their responses for each MHHS requirement. Participants should respond to the specific questions in the form, using the guidance provided.

The finalised QAD must be signed by a Company Director (or delegate for roles governed only under REC) to confirm that the information and evidence provided is complete and accurate.

Acronyms and defined terms used across the MHHS Programme are hosted in a MHHS Programme artefact - [MHHS Qualification Glossary](#), and further terms relating to qualification are defined in 'Appendix A – Glossary' of the Qualification Approach and Plan.

[Although Code Bodies have provided a Word version of the QAD for this consultation, the format of the QAD submission is likely to change to an electronic version which will be demonstrated at the appropriate Qualification Working Group (QWG) meeting. Please note that Code Bodies will provide further guidance on the evaluation criteria for each section as part of a QAD walkthrough webinar and within the electronic version.]

## 4.2 Testing Declaration and Evidence Submission

Questions	Guidance Points	Participant Response
<p>4.2.1. Please confirm if there have been any changes to the information provided in the Pre-Qualification Submission form, or Placing Reliance Proposal, if you submitted one.</p>	<p>[Yes/No/Not Applicable]</p> <p>If yes, please provide an updated Pre-Qualification Submission or Placing Reliance form, highlighting the parts that have changed.</p> <p>If you were not required to submit a pre-qualification submission, then please select N/A.</p>	
<p>4.2.2. Please confirm that for each MHHS requirement, you have successfully completed the relevant testing requirements in Pre-Integration Testing (PIT) to satisfy the BSC and/or REC Assessment Criteria, have provided PIT documentation including an approved MHHS-DEL1052 PIT Test Completion Report, and where applicable, agreed a work-off plan with the REC and BSC Code Managers for any outstanding defects.</p>	<p>[Yes/No]</p> <p>If no, please detail which requirements you have not successfully completed testing for, and any mitigation or alternative evidence you have agreed with the relevant Code Bodies.</p> <p>If you have agreed a work-off plan, please provide an update here of the latest status of agreed actions.</p> <p>Your PIT Approach and Plan should have included your defect identification and resolution policy, release management policy, and regression testing policy; if it does not, please provide these separately.</p>	
<p>4.2.3. Please confirm that all relevant process documentation, including Local Work Instructions (LWIs) for operatives have been updated for all business processes required to meet the BSC and REC MHHS assessment criteria.</p>	<p>[Yes/No]</p> <p>If no, please detail expected timeframes to complete these updates; these should be completed by the final submission of the QAD.</p> <p>These updates should cover all of the relevant 'Business Processes' to your role(s) from Section 5 of the QAD..</p>	

<p><i>To be completed in final submission of the QAD</i></p> <p>4.2.4. Please confirm that for each testable MHHS requirement, you (and/or your third party software provider) have successfully completed the relevant testing requirements in SIT or QT, and where applicable, agreed a work-off plan with the REC and BSC Code Managers for any outstanding defects.</p>	<p>[Yes/No]</p> <p>If no, please detail which requirements you have not successfully completed testing for, and any mitigation or alternative evidence you have agreed with the relevant Code Bodies.</p> <p>If you have an agreed work-off plan, please provide an update here of the latest status of agreed actions.</p>	
---	---	--

### 4.3 Operational Readiness

Questions	Guidance Points	Participant Response
<p>4.3.1 Please provide details on your user readiness plan to ensure that operatives will be able to perform the updated processes during live operations.</p>	<p>This should include plans for additional training, guidance documentation, user testing, dress rehearsals, and post go-live monitoring. For the initial submission of the QAD you should outline timeframes for planning, creating, and executing these activities, and in the final submission of the QAD you should outline the latest status of these activities. You may wish to provide a written summary of these planned activities, and/or upload relevant support documentation outlining this.</p>	
<p>4.3.2 What adjustments, if any, are required in your organisation's resource needs to meet the changes brought about by MHHS, and how does your organisation intend to fulfil these requirements?</p>	<p>This response should include a resourcing plan, specifically highlighting areas in which you would like to onboard expertise. Please reference changes required for both the migration period and post-migration activities.</p> <p>For the initial submission of the QAD you should outline the expected timeframes for planning, creating, and executing a resourcing plan, and in the final submission of the QAD you should provide an update on the specific resourcing plan.</p> <p>You may wish to provide a written summary of these planned activities, and/or upload relevant support documentation outlining this.</p>	

4.3.3. How will you ensure that the cutover to the changed processes does not cause disruption to prevent you from meeting your obligations as set out in the BSC and/or REC (as appropriate)?	If an issue does arise during the cutover when you begin migrating, how will you ensure that it does not produce a failure to meet the BSC and/or REC obligations? You should detail any rollback plans and how dual running of pre-MHHS and post-MHHS systems may relieve specific risks.	
--	--	--

#### 4.4 Information Security and Data Protection

Questions	Guidance Points	Participants Response
4.4.1. How will you ensure that you have comprehensively identified and effectively assessed all information security and data protection risks associated with your in-scope services that were updated in line with the BSC and REC obligations brought about by MHHS?	<p>Provide an impact assessment or risk register detailing security and data risk associated with the changes brought about by MHHS, including risk scoring, owners, applicable controls and mitigating actions.</p> <p>Where applicable, provide risk treatment plans detailing the response to any risk associated with MHHS requirements and code obligations.</p>	

#### 4.5 Data Integration Platform (DIP)

Prior to moving to the production environment, the DIP Manager will review the following section in adherence with DSD002 requirements.

[Please note that Issue 101 'Ongoing Governance, Funding and Operation of the DIP' is currently being consulted on and this section will be updated as required to reflect the outcome of this consultation.]<sup>1</sup>

Questions	Participants Response
4.5.1. Do you comply with ISO 27000 series? ( <i>note: or equivalent provision</i> )	

<sup>1</sup> <https://www.elexon.co.uk/documents/change/issues/101-150/issue-101-issue-consultation/>

<p>4.5.2. Provide evidence of process for retaining all audit logs of basic user activities (e.g., logon, logoff, failed attempts) and security events for all information systems and services that interact with the DIP, within legal constraints, for a minimum of 3 months of live data and 12 month archived</p>	
<p>4.5.3. Provide an overview of your process in place to retain any security events for all information systems that interact with the DIP.</p>	
<p>4.5.4. Provide evidence of logical network schematic of the information systems and services in scope that interact with the DIP, and include:</p> <ul style="list-style-type: none"> <li>a) services and functionality;</li> <li>b) gateway/boundaries functionality</li> </ul>	
<p>4.5.5. DIP Users systems are backed-up in accordance with best practice – demonstrable by adherence to ISO 27000 series processes and production of written process to back up systems, to include logical process diagrams;</p>	
<p>4.5.6. Provide an overview of your process in place for Key Management. The DIP keys i.e. those keys used to establish APIs and Web hooks between the DIP and the DIP User's systems</p>	
<p>4.5.7. Processes, protocols and liabilities between the DIP User and any DIP Connection Provider (DCP) they have contracted with - demonstrable by production of written documents (within limits of confidentiality); the DIP Manager may contact the third party directly for verification at their discretion;</p>	
<p>4.5.8. Do systems interfacing with the DIP (either directly or indirectly) have the ability to store messages for at least two years? For clarity, if there is a means of exchanging data between your DIP interface and storage location</p>	

<p>4.5.9. Please provide details of the following documents and processes that you have in place to ensure your compliance with data protection legislation:</p> <ul style="list-style-type: none"> <li>a. Relevant data protection policies,</li> <li>b. Relevant data protection processes, and</li> <li>c. Where applicable, data protection impact assessments.</li> </ul>	
<p>4.5.10. Provide an overview of your contingency plan in place for data breaches, security events, and other emergencies in relation to DIP data, demonstrated by the production of written documents.</p>	
<p>4.5.11. Can you confirm your adherence to the Authority's Data Best Practice?</p>	
<p>4.5.12. Have you signed the Access Agreement with the DIP Manager to start DIP onboarding?</p>	

## 4.6 Interface Management

Data Management Area	Questions	MHHS requirements	Participant Responses
<p><b>4.6.1 Data Integration Platform (DIP)</b></p>	<p>a) What controls and procedures do you have in place around Market Message management to ensure they are robust and appropriate to meet the BSC and REC obligations brought about by MHHS that are relevant to your role(s)? (e.g.</p> <ul style="list-style-type: none"> <li>- <i>Error resolution</i></li> <li>- <i>Monitoring of missing or erroneous DIP interfaces</i></li> <li>- <i>Data backups and recovery processes</i>)</li> <li>-</li> </ul> <p>This may include controls in systems directly to the DIP, or middleware such as the DIP adapter.</p> <p>You may wish to provide a written summary of these processes and controls, and/or upload relevant support documentation outlining these.</p>	<p>MHHS-BR-SU-122  MHHS-BR-SU-123.1  MHHS-BR-SU-123.2  MHHS-BR-SU-124  MHHS-BR-SU-126  MHHS-BR-SU-127  MHHS-BR-SU-128  MHHS-BR-SU-129  MHHS-BR-SU-140  MHHS-BR-LD-058  MHHS-BR-LD-059.1  MHHS-BR-LD-059.2  MHHS-BR-LD-062  MHHS-BR-LD-063  MHHS-BR-LD-064  MHHS-BR-MS-070  MHHS-BR-MS-072  MHHS-BR-MS-073  MHHS-BR-MS-074  MHHS-BR-MS-075  MHHS-BR-MS-083  MHHS-BR-MS-091  MHHS-BR-DS-138  MHHS-BR-DS-139.1  MHHS-BR-DS-139.2  MHHS-BR-DS-143.1  MHHS-BR-DS-144</p>	

<p><b>4.6.2 Data Transfer Network (DTN)</b></p>	<p>a) How is your connection to the DTN maintained to send and receive flows?</p> <p>b) What systems do you use to send DTN flows and what automation steps do you have in place?</p> <p>c) What are your validation steps for DTN flows received via the DTN?</p> <p>d) How are details updated and maintained onto your system?</p> <p>e) How have you adapted your systems and processes regarding DTN flows to reflect the new MEM and Data Services Market Roles?</p> <p>f) How have you tested the DTN flows and to what extent?</p>	<p>MHHS-BR-SU-138  MHHS-BR-RS-143  MHHS-BR-MS-083  MHHS-BR-DS-149</p>
